GROUP 2300

Sir:
Applicants are in receipt of the Office Action dated March 28, 1996, and
request that the following amendments be made:

In the Claims

Claim 1 (amended). A hand held vibration data collector and analyzer system
for collecting, analyzing, and storing vibration data that is produced by and collected
from a predetermined series of machines and for transferring data to a computer,
comprising:

- a vibration transducer for sensing vibration that is produced by the machines
and for producing an analog vibration signal corresponding to the vibration;
- a housing dimensioned and configured for being hand held;
- a conditioning circuit mounted in said housing:

(a) for receiving and conditioning the analog vibration signal from
